application.

Please amend claim 33 under the provisions of 37 C.F.R. §1.121(b) by deleting the bracketed material and inserting the underlined material as follows:

C1 --33. (Twice Amended)

The method of claim 32, wherein the pharmaceutically acceptable carrier comprises an [aerosol,] intravenous [, oral or topical] carrier.--

#### REMARKS

Claims 1-45 were pending in the subject application. The Examiner withdrew claims 1-28 and 39-45 from consideration. Accordingly, applicants have hereinabove canceled claims 1-28 and 39-45 without prejudice to their right to pursue the subject matter in a future application. Applicants have hereinabove amended claim 33 by deleting the terms aerosol, oral and topical. Applicants contend that the entry of the Amendment does not involve any issue of new matter. Accordingly, claims 29-38 will be pending upon entry of this Amendment.

#### Title of the Invention

The Examiner stated that the title of the invention is not descriptive. The Examiner stated that a new title is required that is clearly indicative of the invention to which the claims are directed. The Examiner stated that applicant should restrict the title to the claimed invention, including the use of Factor IX. The Examiner stated that applicant will amend the title, if necessary, upon the indication of allowable subject matter.

In response, applicants will consider amending the title of the invention upon indication of allowable subject matter.
